

RESOLUTION NO. R-55-18

RESOLUTION ACCEPTING BID FOR THE PURCHASE OF A LANDFILL  
FINISH DOZER FOR USE AT THE FORT SMITH SANITARY LANDFILL

---

BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE CITY  
FORT SMITH, ARKANSAS, THAT:

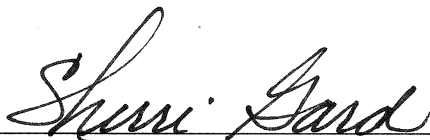

The bid, as indicated by enclosure for the purchase of a landfill finish dozer  
from Riggs CAT, for \$116,902.42, is accepted.

This Resolution adopted this 3rd day of April, 2018.

APPROVED:

  
MAYOR

## Interoffice Memorandum

**TO:** Carl Geffken, City Administrator  
**COPY TO:** Jeff Dingman, Deputy City Administrator  
**FROM:** Alie Bahsoon, Purchasing Manager  
**SUBJECT:** Purchase of Landfill Finish Dozer  
**DATE:** March 28, 2018

In December of 2005, the Board of Directors approved Ordinance 93-05, thereby authorizing the city to participate in the State Cooperative Purchasing program. This process has enabled us to take advantage of other negotiated contracts that the State of Arkansas currently participates in. One of these contracts is a contract with the Arkansas State Highway Commission, an agency of the State. Because of this bid, we are able to “piggy back” off of their bid and obtain this much needed equipment.

As indicated in the enclosed memorandum from Mr. Alan Spangler, Landfill Division Manager, this dozer will be replacing a 2001 John Deere 550 dozer (Asset 4004). This unit will be kept for spare parts and eventually sold in the city’s auction.

Because of the capital equipment improvement plan recommendations by the Arcadis rate study in 2017, the Landfill Division of the Department of Sanitation (Program 6305) budgeted \$145,500 for this purchase. The City is acquiring this dozer from Riggs CAT of Fort Smith in the amount of \$116,902.42. Funding for the dozer is coming out of the Sanitation’s Sinking Fund planned purchases.

This purchase fulfills all of the purchasing obligations as mandated by both state and local purchasing requirements and I am therefore recommending that the enclosed resolution is accepted and approved by the Board.

Please let me know if you should have any questions.

Landfill Division Manager

Re: Purchase of Landfill Finish Dozer

Date: March 27, 2018

---

The Landfill Division is requesting to purchase a new finish dozer to replace asset number 4004, a 2001 John Deere 550 dozer. This request is being made due to the age and condition of the dozer and in accordance with the newly implemented Equipment Replacement Plan. The 550 dozer at this time is not in working order and we are currently renting a Case finish dozer from Scott Equipment. The monthly rental is approximately \$4,000 per month. The Landfill Division, program number (6305) has budgeted \$145,500 in its 2018 budget for this purchase.

This dozer is used at the Landfill for all outside slope work, finish grade work, pad construction, and all specialized dirt work that cannot be done with the oversized trash dozers. Once our new cell is constructed in 2022, we will need this finish dozer to maintain the final grades on the outside slopes for final permitted closure.

We believe the John Deere 550 Dozer has been kept in service beyond its normal expectancy. As with any heavy equipment on a landfill application, it's expected to sell or trade at or before 10,000 hours of use. This dozer has approximately 15,924 hours. Over the life of the dozer there has been approximately \$208,701 of repairs completed. Over the last three (3) years we have spent approximately \$58,445. There are still several major repairs that need to be done to the dozer at this time. We believe the dozer needs to be replaced and sold at auction, instead of spending more repair funds, as we have already spent more in repairs than what a new replacement dozer would cost.

One (1) New CATERPILLAR Model: D4KLGPAAG Track Type Tractors with all standard equipment in addition to the additional specifications listed below:

### Standard Equipment

#### POWERTRAIN

Caterpillar C4.4 ACERT diesel engine turbocharged, EPA Tier 4 Final and EU Stage IV Certified Engine with Aftertreatment Aftercooler, Air to Air (ATAAC) Aluminum bar plate cooling system (radiator, powertrain)

Air cleaner with precleaner, automatic dust ejection and under-hood intake  
Dual path, closed-loop, hydrostatic transmission  
Electric Fuel priming pump  
Fuel/water separator  
Automatic Traction Control

#### UNDERCARRIAGE

Salt undercarriage ( 43 - section )  
6 roller track frame  
Track rollers, lifetime lubricated

Carrier rollers  
Track adjusters, hydraulic  
Guards, Front/Rear guiding

#### HYDRAULICS

3 valve hydraulics  
Single lever, three function control

Hydraulic pump and oil  
Stable Blade control

#### ELECTRICAL

Alternator, 120 Amp, heavy duty brushless  
Alarm, backup  
Horn, electric  
Batteries, heavy duty ,maintenance free,

750 CCA.  
Diagnostic connector  
Starter electric 12V

#### OPERATOR ENVIRONMENT

ROPS/FOPS Canopy  
Seat, air suspended, cloth or vinyl  
Seatbelt, retractable 3" ( 76mm )  
Foot pads, dash  
Electronic Monitoring System with gauge for:  
engine coolant temperature,  
hydraulic oil temperature  
fuel level, diesel exhaust fluid (DEF)  
Travel speed limiter, electronic  
Engine RPM and gear display  
Hour meter, electronic  
Engine air cleaner service indicator,  
Electronic Security System  
Water-in-fuel indicator, electronic

Throttle switch, rotary  
Eco mode  
Controls, seat mounted, fore/aft adjustment  
Armrests, adjustable  
Mirror, rearview, inside  
Single pedal combining deceleration and braking functions  
Independent forward/reverse speed settings  
Powerport, 12 volt  
Coat hook  
Storage compartment  
Cup holder  
Floor mat, rubber, heavy duty

#### FLUIDS

Antifreeze, Extended life coolant (-37C)

#### OTHER STANDARD EQUIPMENT

C - Frame, variable pitch link,  
hydraulic cylinders and lines  
Engine enclosures  
Front pull device  
Rigid drawbar  
Ecology drains ( engine, powertrain and

implement oil, and engine coolant)  
Scheduled oil sampling ports (engine, powertrain implement oil)  
Vandalism protection  
Heavy duty crankcase guard
