SUBJECT: Repeal of Resolution R-210-21 and Enact a New Resolution for the 2022 Sand, Concrete, and Asphalt Products

DATE: January 25, 2022

At the December 14, 2021 Board of Directors meeting, the Board approved Resolution 210-21 for the purchase of aggregates, sand, concrete, and asphalt concrete products for 2022.

Upon passage of Resolution 210-21, staff discovered that while manually uploading the pricing information to the bid tabulation spreadsheet, the bid prices on some of the product line items were inadvertently misapplied and therefore not only was the pricing incorrect but the incorrect vendors were selected as the winning bidders. The attached "2022-Revised" bid tabulation shows the revisions highlighted in yellow with additional comments noted at the bottom of the page. Also, for your convenience, I have included a copy of the previously approved resolution (R-210-21). Please note that there are no changes to the asphalt concrete pricing page.

I am requesting Resolution 210-21 be repealed by the Board and replaced by the accompanying revised resolution and bid tab. Please let me know if you should have any questions.
